Extenuating circumstances definitions and examples

- The FHA defines an extenuating circumstance as an event that was out of the borrower’s control that made a significant impact on the borrower’s finances and led to bankruptcy or foreclosure.

- Fannie Mae defines an extenuating circumstance as a nonrecurring event that is beyond the borrower’s control that results in a sudden, significant, and prolonged reduction in income or a catastrophic increase in financial obligations.
- Freddie Mac defines an extenuating circumstance as a nonrecurring or isolated circumstance, or set of circumstances, that was beyond the borrower's control and that significantly reduced income and/or increased expenses and rendered the borrower unable to repay obligations as agreed, resulting in significant adverse or derogatory credit information.

Bankruptcy definitions

- Chapter 7 bankruptcy – The chapter of the Bankruptcy Code providing for liquidation in which the individual may keep certain exempt property. The non-exempt assets are sold with the proceeds going to the creditors.
- Chapter 11 bankruptcy – The chapter of the Bankruptcy Code providing (generally) for reorganization, usually involving a corporation or partnership. A Chapter 11 debtor usually proposes a plan of reorganization to keep its business alive and pay creditors over time. People in business or individuals can also seek relief in chapter 11.
- Chapter 13 bankruptcy – The chapter of the Bankruptcy Code providing for adjustment of debts of an individual with regular income. Debtors propose a repayment plan to make installments to creditors over 3 to 5 years.
- Dismissal – A Chapter 13 bankruptcy may be dismissed at any time; by the borrower, as a voluntary dismissal, or by the court if the borrower fails to comply with the required payment schedule.
- Discharge – Upon completion of the payment plan, the borrower will receive a Chapter 13 discharge. The court may also discharge a Chapter 13 case prior to receiving all scheduled payments if it finds that the borrower made a sufficient amount of payments and is unable to continue the plan due to extenuating circumstances.

^{iv} The presence of multiple bankruptcies in the borrower’s credit history is evidence of significant derogatory credit and increases the likelihood of future default. Two or more borrowers with individual bankruptcies are not cumulative, and do not constitute multiple bankruptcies. For example, if the borrower has one bankruptcy and the co-borrower has one bankruptcy this is not considered a multiple bankruptcy. The most recent bankruptcy filing must have been the result of extenuating circumstances.
